17. There are three tabs under "Add Respondents."
    - **Enter Individual:** Use this tab to enter each person individually. This will be used when you receive the list via the body of an email or for individual people. Set the quantity to one. If it's for an individual person, set "View Report" to Yes. If this is for a workshop/company/team, set "View Report" to No.
    - **Import from Excel:** Use this tab if you received the list of names and emails from the template you sent or if they sent an Excel sheet. To import, columns MUST BE in this order: Email→Name→Number. Type in Zero to set "View Report" to No, and type in 1 to set "View Report" to Yes.

- **Use Existing Report:** Use this tab if participants have already taken a DiSC assessment with us. This makes the assessment shorter, because it pulls from past assessments. Click the Search button. This will take you to a Search Criteria screen. You can search by name, product family, product, folder, and/or sub-folder. You'll have to do this for each participant. Click NEXT.
